Samuel Gompers Tells the American Legion That the Faith of Union Labor and its Support Was Always Behind the Government—Foreign Felicitations Are Received

(By The Associated Press)
NEW ORLEANS, La., Oct. 17.—The American Legion annual convention today heard Samuel Gompers, president of the American Federation of Labor, pledge anew the faith of union labor that its support was always behind the government and upholding the hands of those who fought for the maintenance of American principles.

It received the felicitations of wounded veterans of European nations who came here last week to attend the convention of the interallied veterans federations upon work it was doing in behalf of wounded men and disabled veterans.

It was pointed to by representatives of veterans of earlier wars as heir to the custodianship of the principles they fought to uphold. The heads of the Spanish War veterans, the Grand Army of the Republic and the United Confederate Veterans brought their greetings and God-speed to the legion.

FEDERAL JUDGE HAND RESERVES HIS DECISION

To Give Ruling October 21; Extends Stay in Meantime

(By The Associated Press)
NEW YORK, Oct. 17.—Federal Judge Learned Hand today reserved decision on applications by American and foreign owned steamship lines to make permanent the stay restraining government officials from putting into effect the Daugherty ruling that vessels must not carry liquor inside the three mile line even under seal when touching at American ports.

Meanwhile Judge Hand extended the stay he had granted last week until he should reach a decision. This decision he indicated probably would be given before October 21, the latest date on which the Daugherty ruling has been ordered into effect. Extension of the stay affects both American and foreign lines.

Judge Hand made known his intention after listening to all day arguments presented by a large array of counsel representing ten of the most important trans-Atlantic Steamship companies and a number of attorneys representing Secretary of the Treasury Mellon, and the federal prohibition enforcement headquarters. The continuation of the stay, he made clear would hold, even if he failed to announce his decision on the injunction before Oct. 22.

The foreign affected by the extension of the temporary stay were the Cunard, Anchor, White Star, French, International Navigation, Holland-American, Scandinavian-American, and Royal Mail Steam Packet. The American lines were the American line of the International Mercantile company and the United American Line. The stays were original in the cases of the Holland-American, Scandinavian-American and Royal Mail Lines, which the ungranted the original stay, declared their counsel that they had cases identical with those of the other foreign lines.

Judge Hand announced he would receive briefs and papers tomorrow and that he would attempt to make a decision as soon as possible, so that the case might quickly be brought to the United States supreme court. The stay, he said, would be valid until the entry of the order on the motion for a judgment.

WHAT HAS BEEN ACCOMPLISHED UNDER HARDING

Hoover Reviews 18 Months of Business in Government

(By The Associated Press)
GRAND RAPIDS, Mich., Oct. 17.—What was termed 18 months of business in government under the Harding administration was reviewed here tonight in an address by Secretary of Commerce Hoover. As outstanding accomplishments he pointed to the re-establishment of peace with Germany and Austria, the work of the arms conference, reductions in federal expenditures and the public debt improvement in agricultural and unemployment conditions and the organization of the budget bureau and the allied debt commission for refunding the war loans.

Of the arms conference the commerce secretary said it had resulted in not only reducing the navies of the world but had settled the two outstanding dangers in our generation—naval rivalry with England and the rising conflict with Japan.

"The second outstanding mark to be attacked was the reduction of governmental expenditure and taxes," continued Mr. Hoover. "As a result of hammering for economy in every direction the expenditures of the federal government have been reduced from \$5,383,000 for the year ending June 30, 1921 to an expenditure not exceeding \$3,770,000,000 for the fiscal year ending June 30, 1922, for which appropriations have already been made and the budget settled."

Reduction of Debt
Meantime between March 3, 1921, and September 30, 1922 the national debt has been reduced from \$24,045,000,000 to \$22,812,000,000. The funding commission has been established to handle the foreign debt. Practically no interest or payments on principal have been made by foreign governments during the previous administration. Under this funding commission we are rapidly reaching a settlement with the British government which comprises 45 percent of this debt, by which their payments are to begin at once. This will bring into our treasury somewhere from \$175,000,000 to \$200,000,000 per annum.

"Liberty bonds have been restored to par with an increase of 14 percent in value since March 4, 1921, or a saving of more than three billion dollars to the 18,000,000 holders of government securities at lower rates of interest and with a steady saving to taxpayers."

"Taxes have been reduced by over \$800,000,000 by repeal of the nuisance taxes and other war taxes. There remains much to be done but 18 months is too short a time to do everything."

COURT ORDERS PROBATIONSMAN TO PAY WIDOW BACK MONEY

Alleged to Have Charged Her \$1,000 to Furnish Bond for Son

(By The Associated Press)
CHICAGO, Oct. 17.—Protest against the court's action against a probation man, was ordered by Judge M. L. McKinley today to relinquish to the mother of "Jimmy" Smith a deed to her \$2,500 home, which he was accused of holding as security for a bond he furnished for Smith's release. Smith was accused of holding up and killing a cigar store clerk in an attempt to get \$500.

The court also ordered Fred Smith to turn over to Mrs. Smith \$500 which she declared she had paid him as part payment of \$1,000 which she is said to have charged for furnishing the bond. The court told Fineman that unless the money was forthcoming by tomorrow grand jury action would be sought.

Smith when arrested contended that he committed the crime in an effort to obtain money to pay his bondsmen for release on a previous charge.

Armed Bandits Rob Diamond Salesman

(By The Associated Press)
CHICAGO, Oct. 17.—Max Moser, diamond broker and salesman representing three large New York concerns, reported to the police tonight that he had been kidnapped by three armed bandits and robbed of his sample case containing un-set diamonds valued at \$300,000.

Moser said he was kidnapped in front of the Congress Hotel on Michigan boulevard as he was about to step into an automobile to go to a railroad station to board a train for Cincinnati.

He was accompanied by Charles Morris, representative of the New York Life Insurance company. Covering Moser and Morris with guns they commanded them to drive away. The bandit car followed.

"Where are the diamonds?" one of the robbers asked, according to Moser.

"We have followed you from St. Louis and we want those stones."

Finding the sample case, the bandits disconnected the ignition wires of Morris' car to prevent immediate pursuit, climbed into their own machine which followed close behind and drove away.

FATE OF LLOYD GEORGE REGIME IS IN BALANCE

England Anxious Over Result of Meeting Thursday

(By The Associated Press)
LONDON, Oct. 17.—Whether Premier Lloyd George, whose administration has long outlasted the great statesmen of all the Versailles treaty and the making of peace, will fall as a secondary effect of Mustafa Kemal's victory in Anatolia still hangs on the result of Thursday's meeting of the Unionist members of the commons.

In all political quarters in London today there was a state of feverish activity, meetings and consultations occupying the entire day.

The prime minister returned to town and besides consulting with the members of his cabinet presided this evening over a large meeting of liberal ministers under-secretaries, party whips and others.

No report of the proceedings has been issued, but it is supposed that Mr. Lloyd George desired to ascertain how far he could still depend upon support from the liberal wing of the coalition in the coming developments, and in the event of the conservative revolt proving dangerous.

Opinion tonight seems to be veering toward the belief that the rebellious conservatives at the last moment will recoil before the prospect of breaking with Mr. Lloyd George who clearly still retains the support of Mr. Chamberlain, and that the latter may secure a majority at the Thursday meeting. It is understood that should the Carleton gathering vote against Mr. Chamberlain, neither the Earl of Balfour nor Mr. Bonar Law would undertake to form a conservative ministry should Mr. Lloyd George resign.

Mr. Bonar Law's health is restored thru his long abstention from politics, but it is said that he lacks the physical endurance which would justify his undertaking the responsibilities of government. The Earl of Balfour has been so closely associated with Mr. Lloyd George in all phases of the prime minister's administration that he probably would not be inclined to take charge of a new administration almost certain to be short lived. The premier's speech next Saturday will be delivered at Leeds instead of New Castle as first proposed.

If the Carleton meeting registers a vote of confidence in Mr. Chamberlain, it is reported that Mr. Lloyd George will insist upon imposing his own strict terms as a condition of continuing to lead the reunited coalition. If dissolution is decided upon there is evidence of many changes in the new parliament.

REPORTED THAT GRAND JURY IS NOT IN ACCORD
Is Probing Vice War Which Has Caused Deaths in Rock Island

(By The Associated Press)
ROCK ISLAND, Oct. 17.—The county grand jury investigating the killing ten days ago of John Looney Jr., one of the dozen victims of a dispute between the vice factions here, was reported tonight to be divided as to its findings.

Four men are under arrest in connection with Looney's death. The jury it is reported is considering a recommendation that Attorney General Brundage conduct a separate investigation. Meanwhile interest centered in the investigation of the killing of Looney and other shootings here by the federal grand jury in session at Peoria.

One soft drink stand went out of business today as a result of the police campaign against the selling of liquors and others were reported about to take similar steps. Dr. Charles Snyder, moderator of the Unitarian Church conference meeting here today in an address asserted that Rock Island's position in regard to the vice had been brought about thru the granting of special privileges outside the law.

FREAR ASKS MELLON TO PROBE STANDARD OIL OF NEW JERSEY

Wisconsin Representative Would Get After Stockholders Whom He Alleges Are Escaping Taxation—Says if Income Tax is Just That It Should be Enforced Equitably

(By The Associated Press)
WASHINGTON, Oct. 17.—Citing reports that the Standard Oil company of New Jersey had declared a 400 percent stock dividend, Representative Frear, Wisconsin, Republican member of the house ways and means committee asked Secretary Mellon in a letter today if the treasury had invoked section 220 of the 1921 revenue act, "which provides for reaching holders of surplus when held for the purpose of escaping taxation."

Mr. Frear also wrote the secretary that according to newspaper despatches subsidiary members of the Standard Oil company were declaring various stock dividends and that the United States Steel Corporation "will take the same course with a surplus estimated at several hundred million dollars."

In making public his letter Mr. Frear announced in a statement that in the next congress he would lead a fight to make all income tax reports public records, adding that these were the only important government records now kept secret by law. Some campaigning will be required, Mr. Frear said, to change the present law.

"It may not get far during the short session," he added, "but it is certain to be a live issue in the 68th congress."

"It is possible," Mr. Frear declared, "that a disclosure of secret tax reports held by the treasury will show that more than \$200,000,000 and possibly many times \$200,000,000 is being lost to the government thru tax free securities, stock dividends and other escape ways known to large taxpayers that should be collected."

President Harding, said Mr. Frear, sought to reach tax exempt securities by a constitutional amendment, but for some reason the proposal was smothered and never passed the house.

"If the income tax is right in principle by taxing incomes according to ability to pay their graduated surtaxes," Mr. Frear declared, "then the law should be enforced equitably. In other words, if the Rockefeller family for example with a reputed income of a million dollars a year places its Standard Oil profits in stock dividends so as to make them non-taxable it may be assumed that it has equally protected the remaining income by large investments in tax free securities and instead of paying a hundred million dollars tax annually on this enormous income it was generally supposed it may have been shaved down to one percent of that amount. No one can tell because the returns are held under the law. Only this treasury knows. The administration of the same avenue so as to make the law lies with Secretary Mellon whose absolutely honesty is not questioned in following the strict letter of the law but Mr. Mellon is quoted by Klien to be worth \$300,000,000 which it reasonably accurate should yield an annual income of about \$15,000,000 or more annually, while his daily income of \$50,000 is several times his annual salary as secretary of the treasury. Whether Mr. Mellon avails himself of the same avenue to income tax escape as Mr. Rockefeller is only known to the secretary of the treasury who has the records and what is true of Mr. Rockefeller and Secretary Mellon is equally true of many of the 20,000 individual tax payers whose annual incomes are supposed to run from \$50,000 to \$250,000,000 each if correct reports are to be had. These are all kept secret today."

CLAIMS LESTER HAD SECRET AGREEMENT WITH UNION MINERS
Witness Says Officials Had Given Permission to Work Mine

(By The Associated Press)
CHICAGO, Oct. 17.—W. J. Lester, president of the Southern Illinois Coal company at Jerrin, Ill., scene of the mine riot last June in which more than a score of men were killed had obtained secret permission from officials of the coal miners' union in Williamson county to operate his mine according to testimony at the hearing today before Daniel J. May of the State Industrial commission. The hearing is being held in an effort to determine what insurance companies are liable for the loss of life.

The Continental Casualty company insured the Hargrave secret service agency which furnished men to operate and guard the mine while the Aetna Insurance company carries the policies of the Southern Illinois Coal company. Edward J. Hargrave of the detective agency testified that C. K. McDowell, superintendent of the mine who was killed in the rioting had told him that permission had been obtained from union officials to operate the mine.

LOOKS LIKE FINAL EXODUS OF TROOPS WILL SOON BEGIN

Germans Will be Sorry to Have Americans Leave Rhine

(By The Associated Press)
COBLENZ, Oct. 17.—The sailing of overseas casual detachment 49 on the Steamer America from Bremen Oct. 25 may be the beginning of a final movement home-ward of all the remaining men of the American forces in Germany if reports from Washington prove correct.

Detachment 49, composed of two officers and 62 men, will leave Coblenz in special cars Oct. 23, for Bremen.

No official orders have been received from Washington and meanwhile the American forces are carrying on their duties as usual. Many of the men today accepted the report that they were to be sent back as true and gathered in solemn little groups and talked over the situation. Most of them asserted that they would be well satisfied to remain on the Rhine. The Germans showed plainly that they would be sorry to have the Americans go.

Major Allen in command of the American troops has received notice of a recall and many officers are still skeptical over the report.

A THOUGHT

And that which fell among thorns, are they, which they have heard, go forth, and are choked with cares, and riches and pleasures of this life, and bring no fruit to perfection.—Luke 8:14.

The glory of life is to love, not to be loved; to give, not to get; to serve, not to be served.—Hugh Black.

Application has been made to build 550 miles of electrified railroad in Colorado, New Mexico and Arizona, with many miles of branch lines. Another indication of the prosperity anticipated by investors.

Perhaps Rock Island is determined that Herrin shall not occupy all the stage when it comes to misconduct. At any rate, Illinois now has two blots, one in the southern part and another in the northern.

That the Jacksonville schools have had expert leadership in the person of Supt. H. A. Perrin is evidenced by the fact that he has been called to the superintendentcy of so large a city as Joliet. The post there no doubt has its difficulties but presents the opportunity for larger work. Mr. Perrin and Jacksonville has both been complimented.

The traffic committee made a good start at a conference held last night. It was evident from

the discussion that the traffic problem is one which calls for serious and extended consideration. That is just what the committee proposes. Indications are that a report issued some weeks hence will propose radical changes in the traffic laws but will have the backing and approval of the public.

A Unionist party convention in London Thursday will decide whether or not to again support Lloyd George's program. The British premier evidently does not face the situation with fear and trembling. Instead, he seems to be sanguine and complacent. Lloyd George occupies an unusual place in international politics and diplomacy, for he is the only survivor of the conspicuous world war political leaders.

Now the public will be especially glad that Henry Ford was able to beat down the prices the coal operators were trying to charge them. Because of a general reduction in the cost of manufacturing, Mr. Ford is now able to lay off another \$50 from the price of every model the Ford factory offers.

Mr. Grable was recently defeated for re-election to the presidency of the Maintenance of Way railroad workers. Although out of office Mr. Grable can have the satisfaction that he performed a great service to his organization a few months ago, when his action prevented a strike. He advocated settling matters by arbitration and that course may have cost his position, but he has nevertheless done well.

It will be worth while to take a look at the poll book which will be found in the polling place in your precinct, and see if your name is written there. If not, there will be still another chance before election to see that you have been properly listed and can cast your ballot in the November election without being challenged.

There are so many questions of interest to be decided at the polls at this election in addition to selecting certain state, district and county officers, that a heavy vote is considered certain.

COMMITTEE READY TO STUDY TRAFFIC

Informal Discussion at Tuesday Night Session Revealed Varying Views—Organization Committee Selected.

A committee of five selected from a general traffic committee, was named last night at the Chamber of Commerce rooms to outline a plan for the consideration of the traffic problem. This action was taken after nearly two hours had been spent in informal consideration of the whole big project.

Mayor E. E. Crabtree called the conference to order and stated the purpose. A nominating committee was appointed and their report was unanimously adopted. By this action organization was effected with H. M. Capps, chairman; Dr. W. P. Duncan, vice chairman and Harold C. Welch, secretary.

In the absence of Mr. Capps the session was presided over by Dr. W. P. Duncan, who suggested an informal discussion of the project. This resulted when Dr. Duncan called upon each individual present to express his opinion. It was made very clear by the differing suggestions that the traffic problem is one which requires the best thought of the committee and ample time.

Among those who took part in the session were Frank Mathews, Basil Sorrells, J. W. Morrison, Felix E. Farrell, A. W. Becker, W. T. Harmon, Chester Joy, Clarence Swaby, William Cocking, L. E. O'Donnell, Lester Reed, J. L. Henry, Walter Houston, T. C. MacWear, Dr. Duncan, Harlan Williamson, A. R. Taylor, R. W. Blucke, Samuel Hunt, Frank Kiloran, J. H. Zell, W. E. Sullivan and W. A. Berryman.

Mrs. S. Jones and Mrs. Hester Capps were added to the committee. The sub-committee of five mentioned above will meet at chamber of commerce rooms this afternoon at 2 o'clock for the purpose of outlining plans for a "thorough study of the general subject."

In the discussion last night it was made clear that the new traffic rules must take into account the interest of car drivers, pedestrians, business men and the general public. One way streets, more rapid movement of cars, the securing of vacant lots for parking purposes, utilizing a larger portion of the park for cars, were only a few of the suggestions made.

In closing Dr. Duncan said the most important thing of all is to keep everybody in a good humor over the matter, realizing that the rights of all must be considered and that it is of real importance to have all visitors to Jacksonville leave with nothing but the most cordial feeling toward the city.

OLNEY COUNTS SHOE FACTORY GREAT THING

Banker There Writes About Satisfactory Results That Have Come With Establishment of Plant.

Local members of the Chamber of Commerce are still expecting that the Brown Shoe Co. will give further consideration to the proposal of locating a branch factory here. Because of that fact, investigations are being made to learn as to the desirability of securing an enterprise.

Recently Mayor E. E. Crabtree wrote to George A. McGahey, president of the Olney Trust & Banking Co. of Olney, Ill., to find out the experience of that city with reference to the shoe factory. The factory there is a branch of the International Shoe Co., and according to Mr. McGahey's statement a shoe factory provides employment for a large number of people at satisfactory wages, and in the case of Olney the plant has been a most desirable addition to the business life of the community.

Text of Letter from Mr. McGahey's letter follows: Mr. E. E. Crabtree, Jacksonville, Ill.

Dear Sir:

I have your letter of the 9th inst. I was indeed glad to hear from you.

In the Spring of 1920 The International Shoe Factory made us a proposition for one of their branch factories. We gave them in site and money in round figures. One hundred thousand dollars. They expended \$187,000.00 on the building ready for operation. They agreed to pay out in wages in our city at least Two Million Dollars in ten years time, which you will see is practically five per cent pay roll proposition. They are now working between 425 and 450 people and the pay roll for several weeks has been between Sixty-five and Sixty-seven hundred Dollars per week. At this rate they will discharge their obligation with us in not to exceed seven years. They are fine people with whom to transact business, and their factory has been a great help to our business people and community in general.

It was some proposition for us to raise the money necessary. We first made a survey of the business interests of our city and figured they should pay seventy-five per cent of the money needed. We then allotted this amount to the business men as we thought they should pay in proportion to their business. We never ask them what they would give, but told them what they would have to give for us to succeed.

We took a note from each person, one-fourth of which was due June 1st, 1920 next fourth June 1st, 1921, June 1st, 1922, and the last payment will be due June 1st, 1923. A great many people paid cash and our committee then borrowed money from the banks of our city, the balance to be paid to the factory and used the notes of our subscribers as collateral. The banks do the collecting.

If you want something real good for your business men and your people get a branch Factory of the International Shoe Factory. I would suggest that if you are entertaining a proposition of this kind that you bring a committee to our city and visit the factory we have and interview our merchants, and at the same time I will be glad to go farther into this matter with you.

Trusting that I may sometime have the pleasure of meeting you again, I remain, Yours truly,

GEO. A. MCGAHEY, Pres.

SONG RECITAL GIVEN AT NORTHMINSTER

Mr. Arnold Lovejoy of Conservatory of Music Appeared in Brilliant Program.

Last evening there was given in Northminster church the first of the faculty recitals of Illinois College Conservatory. Mr. Arnold Lovejoy, the new head of the voice department, gave a program of song, assisted by Mr. Edmund Manger at the piano, and was greeted by a very large audience with every evidence of interest and enjoyment. The program was of considerable variety, containing operatic and oratorio airs and songs in Italian, French and English—a selection which met every taste and was well arranged. To an audience of remarkably attentive listeners it seemed short—a fact evidenced by the ever increasing enthusiasm throughout the evening.

Mr. Lovejoy has appeared before various clubs and societies in Jacksonville, but never before in a serious recital program. That he is an addition to the personnel of professional musicians in this city is not to be doubted after hearing him yesterday evening. His personality and stage appearance won his audience for him before he had begun his first number, and one's respect for his musical attainments grew constantly as the evening wore away, reaching a climax of enthusiasm with his superb singing of "The Blind Ploughman," his last number, made more impressive by the addition of organ to the piano accompaniment. His voice is a bass-baritone of surprising range and flexibility, produced naturally, and of apparently unlimited power, while his pianissimo were most delicate and beautiful.

It is not often that one hears equally well sung two such contrasting songs as "Thou Art My Peace," and "I Will Not Grieve," nor two such widely different styles as are to be found in the "Herodiade" Aria and the "L'Adieu du Matin." Needless to say, his English numbers were done to perfection, for his enunciation is all that could be desired in his interpretative ability extraordinary. The union of the little encore song, "Mah Lindy" was delightful, revealing a real knowledge of the Southern Negro as well as the faculty of reproducing the genuine plantation effects. As an encore after the "Blind Ploughman" he responded with a charming song called "Noon and Night," by Hawley.

Mr. Manger's accompaniments were, as usual, eminently satisfactory, and Miss Scheweke added greatly to the last number by her assistance at the organ.

GOOD ROADS MEET PLANNED FOR WAVERLY

Gathering Friday Night Will Boost for Hard Road from Alexander to Waverly.

Many good road enthusiasts are looking forward with great interest to the good roads meeting to be held in Waverly, Friday evening, October 20. The meeting is for the purpose of working up interest and making hard plans to secure the laying of an 18 foot concrete road from Alexander to Auburn by way of Franklin and Waverly. This road would connect Jacksonville with the state bond issue roads from St. Louis to Springfield.

Leaders in this movement state that with a good organization behind the project, the construction of the new road could be put over without much trouble. The meeting is being called by the Waverly Chamber of Commerce and the Jacksonville organization is cooperating with them, as are also Auburn and Franklin. Henry Rodgers and other citizens of Jacksonville will be on the program.

No effort is being made to organize an auto tour to attend the meeting but the public is urged to attend. Any one who can possibly drive over to Waverly and attend the meeting is urged to do so. A large number of people at the meeting and great interest shown in the undertaking will do much to strengthen the cause of the proposed hard road and to aid in the completion of the project. The meeting will be held in the basement of the Methodist church or in the Waverly Opera House.

Many have come to us without means to pay for operations and care. We gave freely of our services as far as we could without hope of reward. ANTI-TUBERCULOSIS LEAGUE HELD MEETING

Several Important Committees
Named—Dr. Martini Told of
Sanatorium Work.

The directors of the Anti-Tu-
berculosis League held a regular
business meeting yesterday to dis-
cuss plans for the coming winter
months. Such an organization
with a community conscience is
never found wanting when the
health of its citizens is concerned.

Dr. Pontius as president pre-
sided. During the business ses-
sion several important committees
were named to begin the activities
of the League. Dr. Dewey, Mr.
Ralph Dunlap and Mrs. Adams
were the committee named to se-
lect a county chairman for the
sale of Christmas Seals, the step-
ping stone to health, happiness
and long life.

A most interesting discussion as
to whether or not a tax to support
the County Sanatorium should be
asked at the November election.
The sentiment of the directors
was that it should not be asked,
having been previously voted.

A committee was named to in-
terview the county commissioners
and so state the policies of the di-
rectors.

The following delegates to the
conference at Springfield October
2 and 24 were named: Dr. Milli-
gan, Dr. Elsworth Black, Dr.
Martini, Mrs. Adams, Mrs. Earl
Rexroat, Carl Robinson was
unanimously elected a director of
the League.

Dr. Martini, superintendent of
Oak Lawn Sanatorium was the
speaker of the day and gave a
most interesting and instructive
talk on the work of the sanatorium
and its present needs in part.

It is easy for the public to be-
lieve that a sanatorium for the
prevention and cure of tubercu-
losis is a very necessary and de-
sirable addition to any commu-
nity, but it is not so easy to impress
the same public with the idea that
a visiting nurse and a dispensary
are just as essential.

The visiting nurse is considered
an advance guard in the fight
against tuberculosis. She will
make a tuberculosis survey of her
territory instructing families and
individuals how to avoid spread-
ing the contagion and referring
cases that need special care to the
sanatorium for treatment or to
the dispensary for examination
and advice. After the visiting
nurse becomes known through-
out her territory she will gain
entrance into many homes which
would not be reached in any other
way. At first she will come in
contact with the very needy and
advanced cases but gradually she
will discover the incipient cases
among the families and associates
of the more advanced cases.

Work of Visiting Nurse
This work of the visiting nurse
will logically lead to the estab-
lishment of a dispensary. The
work of the dispensary will sup-
plement the work of the visiting
nurse. All classes of cases will
be referred by the visiting nurse
to the dispensary for examination,
advice or whatever happens to be
the need of the individual. The
dispensary may be developed to
such a degree of efficiency that it
may be able to provide suitable
employment for those who may
not require hospital treatment or
bring into touch with charita-
ble organizations those who are
in financial distress.

The dispensary is the link be-
tween the visiting nurse and the
sanatorium. If a dispensary is
maintained, cases are referred by
the dispensary to the sanatorium
for treatment. The work of the
sanatorium is chiefly the treating
and training the consumptive in
the right habits of living. If the
incipient cases are taken in time
and sanatorium care given, seven-
ty-five percent of these afflicted
people will be restored to health
and usefulness.

Directors of the Anti-Tubercu-
losis League are: Mrs. A. L. Ad-
ams, Dr. Elsworth Black, William
Batz, Dr. Edward Bowe, Mrs.
Herbert Capps, Dr. C. E. Cole, Mrs.

LEVIN MAKES REPLY TO LOCAL PASTOR

Candidates For House Expresses Willingness to Debate With Rev. Mr. Howells After Election—Ku Klux Klan Bone of Contention.

Isadore Levin has written the following letter to Rev. A. P. Howells in reply to a recently addressed to him by the Jacksonville minister:

October 16, 1922, 516 East Capitol avenue, Springfield, Ill.

My Dear Sir: It is agreeable to me to meet with you in debate after the election. Since you state that the Klansmen will bury me on November 7, it is a political issue and ought to be debated before election day. Your letter amused me. Like all Klansmen whose names I have procured you emphasize that you are not a member. Every burglar, porch-climber and safeblower is ready with a plausible alibi when accused of a crime. By the way, these gentlemen also wear masks and do their damage at night only.

Please turn to your New Testament and read Matthew VII-12. Then tell me if you were living in Utah would you not object to your child being compelled to celebrate the birthday of Brigham Young. (Mind you I am not saying that the Mormons are doing this). Would you object if your child were required by the Jacksonville school board to celebrate with exercises and songs the birthdays of Moses, Buddha, Confucius, Wesley, Mohammed, Mrs. Eddy, Pope Pius, and others who are accepted to be more or less as spiritual as Christ to their respective followers?

The Jews in New York in a spirit of true Americanism as defined by the framers of the United States constitution prohibit all religious instruction in the public schools which are maintained by the people of all creeds, Christian and non-Christian. That was not a direct attack upon the Protestant faith of America? It was a separation of church and state which Klansmen accuse the Catholics of advocating and as a matter of fact is being put in practice by narrow minded Klansmen and their sympathizers.

I defy you to name a single Jew who is a member of the Ku Klux Klan.

It pains me to think that a man who professes to be a follower of the gentle, humanity loving, merciful Nazarene, who preached love and good will to use his holy name in the propagation of religious bigotry, and social prejudice.

Your alleged "100 per cent Americans" have swallowed the European idea of caste, ancestry and the undemocratic scheme of discrimination.

But worse than this is your preaching and practice to violate the law, to use force, organize mobs, to destroy property in the name of the Christ, the lover of humanity and the United States constitution which guarantees every man a trial by jury, due process of law and the freedom to exercise religious liberty.

There are bad men and women among all people. The Jews, Catholics, negroes, foreign born (who really won the war for the north in the civil war), the Seventh Day Adventists, the Germans, Lutherans and liberal Protestants will give their last bit to uphold the supremacy of the American republic and for the annihilation of the un-American empire.

Permit me to close with the remarks of three real Americans:

Lincoln said:
"I am not a Know-Nothing, that is certain. * * * When the Know-Nothings get control it will read: 'All men are created equal, except negroes, foreigners, and Catholics.' When it comes to this I should prefer emigrating to some country where they make no pretense of loving liberty—where despotism can be taken pure and

without the base alloy of hypocrisy."

Roosevelt said:
"Any political movement directed against any body of our fellow citizens because of their religious creed is a grave offense against American principles and American institutions."

Taft said:
"There is nothing so despicable as a secret society that is based upon religious prejudice and that will attempt in any way to defeat a man because of his religious beliefs. Such a society is like a cockroach—it thrives in the dark. So do those who combine for such an end work in secret and in the dark."

Bishop Samuel Fallows (Reformed Episcopal church):
"The Klan is a menace to religious freedom, a source of damage to the state and its growing strength should be curbed thru the united efforts of all true Americans regardless of creed, race or condition of life."

Bishop Berry (Methodist):
"How any one who is not either ignorant or vicious can be associated with such a movement as the Ku Klux Klan, is more than I can understand."

I regret that we want to reverse the religious and clanisms which have drenched the earth with human blood.

I would like to debate with you before November 7, but if you insist we will debate after the election. The question to be "Is the Ku Klux Klan desirable?" Of course I will contend that it is absolutely not.

Sincerely Yours,
Isadore Levin.

Independent candidate for state representative.

FINDS OLD PROGRAM

Recently a member of the family of Robert Clement, residing at 676 South West street discovered between the walls of the residence a program of the commencement exercises of the class of 1881 at Illinois college. The program was printed at the Journal office and contains several names well known here.

Among them are William Jennings Bryan, Rev. Julian S. Wadsworth, Charles G. Rutledge, Rev. Charles R. Morrison. Mr. Bryan has since become a world figure. Rev. Mr. Wadsworth is prominent in Methodism and is at present engaged in work in Chateau Thierry, France. Charles G. Rutledge was for many years cashier of the Ayers National bank, and is now a state bank examiner and resides in Chicago. Rev. C. R. Morrison is still an active Methodist minister and a number of years ago was located in this city as pastor of Brooklyn church.

J. P. Drennan and Jerry Donahue were also members of the class and afterward went to Decatur where they purchased the Decatur Review and made it one of the best papers in central Illinois. Mr. Drennan died a few years ago but Mr. Donahue is still actively engaged in the management of the paper.

HI Y. CLUB NEARS ONE HUNDRED MARK

Club Now Has Ninety-Two Members—Regular Meeting Held Last Night.

Tuesday evening at 5:45 o'clock the Hi Y club held its regular weekly meeting at State Street Presbyterian church. There were 72 present, being a record breaking attendance. Supper was in charge of Miss Nellie Cunningham and was praised by the entire club.

President Cranwell presided over the business meeting. The committee which had charge of the sale of athletic association tickets at the high school reported that the tickets were going very slowly. The students do not realize the worth of these tickets, as they will save at least \$3 on each ticket. This and other business concluded the business meeting. J. S. Findley then took over the meeting and conducted the Bible lesson. Mr. Findley called on Alfred Cranwell to talk on the subject, "Is there any assurance that the present generation will materially solve the social and economic problems of today." Edward Joaquin was also called upon to speak. He was given the subject, "Are high school pupils today more interested than any other group in making the world a better place to live in."

References were reported on by Louis Gard, "Samuel Smiles and character," "Lee Baldwin," "Emerson's Essay on Manners," "Kleth Scholfield," "Bacon's Essay on Customs and Education," and Robert Brown reviewed the first and second chapters of "Ecclesiastes."

Mr. Findley took up the problem of customs, habits and study of life problems of school boys.

The club is larger this year than in any previous year and with 13 new members last night, making a total of 92, the club has a good start on a successful year.

AMERICAN LEGION SOCIAL MEETING

Business Session Held and Then Vaudeville from the Opera House Gave Entertainment.

The American Legion held a social meeting in their hall last night and decided upon some very important business, which was followed by different kinds of entertainment.

Miss Wadsworth, recently from France, gave an interesting talk on Chateau-Thierry. Vaudeville acts from the opera house furnished some lively entertainment and the Legion members wish to express their appreciation to Manager Scott and those who furnished the entertainment.

The Legion decided not to take the initiative in organizing a celebration for Armistice Day, but, if a parade or any form of celebration is carried out, the Legion will back it to the limit.

The team that will arrange for entertainment at the Oak Lawn sanatorium for the next two weeks is composed of Clarence Ratachak, and Clyde Black. These entertainments are given every Thursday night at the sanatorium.

Visitors at the meeting were Lieut. Hall of the Salvation Army and C. Y. Rowe.

A special meeting will be held next week.

Before the meeting broke up good old doughnuts and cider were served as refreshments.

LOWER INSURANCE RATES DISCUSSED

Publisher Writes Mayor Crabtree About Changes Necessary to Give City Lower Premium Costs.

From time to time the question of securing a lower insurance rate for Jacksonville receives attention. Mayor E. E. Crabtree some time since asked the insurance companies what needs to be done locally in order to secure a classification which mean lower rates. Recently Mr. Crabtree received a letter from Frank H. Jones, publisher of the Illinois Inspection bureau, on whose reports the insurance companies base their rates, in which the following improvements were recommended for Jacksonville.

Mr. Jones states that if recommendations Nos. 1, 2, 3, 4, 5, 6, 8, 10, 11, 13, 14, 15 and 16 are complied with that Jacksonville could be classified as a sixth grade town, instead of in the seventh class as at present. If all recommendations are complied with the city could move up to the fifth class.

The recommendations are as follows:

Waterworks

1. Keep complete records of location of valves and daily consumption of water.

2. Arrange for waterworks department and pumping station to receive all alarms of fire.

3. Install a new 16" supply main from reservoir to the public square, same should be laid along Grove or College street (Note: this recommendation is made in order for the city to receive the full benefit of the large amount of water in elevated storage. The capacity of the present 10" supply main is approximately 1000 gallons per minute at 20 pounds residual pressure, and the combined capacity with the new 16" main will be approximately 4500 gallons per minute.)

4. Construct a new fireproof electric light and pumping station with sections properly cut off. (Note this is one of the improvements under consideration by city officials.)

5. Inspect all gate valves at least once each year and keep a complete record of same.

6. It is recommended that nothing smaller than 6" mains be laid in the future.

Fire Department

7. Place entire department under civil service regulations, establish rules for enlistment of men by competitive examination, and provide rules for trial for insubordination.

8. Increase the numerical strength of department to 12 men not including the Chief.

9. Install an additional 800 gallon combination auto hose chemical and pumping engine with additional men to operate same.

10. Provide the following powerful stream appliances. One Monitor or turret nozzle, one ladder pipe, one deluge set.

11. Provide the following minor equipment—2 hose clamps, 2 smoke masks.

Fire Alarm

12. Install a modern telegraph fire alarm system.

Ordinances

13. Adopt the National Building Code, provide for the enforcement thereof, and keep records of all building permits.

14. Prohibit the further installation of shingle roofs within the city limits.

15. Properly enforce the present electrical ordinance.

16. Enact laws regulating the storage of gasoline, construction of motion picture machine booths, accumulation and burning of rubbish, and prohibit the use of sale of fireworks.

COUNTY CLERK ARRANGES FOR ELECTION RETURNS

County Clerk G. L. Riggs is already making arrangements for receiving returns on election night. The circuit court room will be open election night and arrangements have been made whereby returns from the various precincts will be received promptly and will be displayed on a large bulletin board. This arrangement will be appreciated by voters, as they will thus have the opportunity of being seated within doors while the returns are being tabulated.

Altho this is not a presidential year, a great deal of interest is being shown in the election in the state, district and county, and all the indications point to the casting of a heavy vote.

WORLD'S SERIES CHECKS DISTRIBUTED

CHICAGO, Oct. 17.—Checks ranging in sums from \$50 to \$4,545.71 were mailed today from the office of K. M. Landis, baseball commissioner, to 74 men who participated in the 1922 world's series games. Three checks, each for \$2,842.86, were handed to players Joe Bush, Waite Hoyt and Fred Hofmann, of the Yankees, while they were leaving Chicago last Sunday, enroute to Japan. Eighteen Giants, including Manager John McGraw and Coach Hughie Jennings, each received a check for \$4,545.71. Five members of the Giants were given individual checks for \$4,545.70. One of these was "Cozy" Dolan, the veteran assistant coach. The veteran pitcher Jess Barnes, received one cent more than his brother Virgil, who is also a pitcher. The checks of 12 others, including players who were later added to the Giants' roster, ground keepers, trainers, mascots, etc., ranged from \$200 to \$2,272.85.

Of the 29 checks mailed today to members of the Yankee club

members, 23 were for \$2,842.86 each, and two for \$2,842.85, each of the latter being one cent less than the amounts received by the highest group. The remaining seven checks, represented sums ranging from \$50 to \$1,421.43. The total amount of the checks mailed today was \$177,289.37, of which \$111,289.37 went to the members of the Giants and \$66,000 to the Yankees.

The checks to the umpires who officiated in the baseball classic and to the players whose clubs finished second and third in the two major leagues will be mailed later.

ADD-AMERICAN QUARTER ON FRESHMAN ELEVEN

IOWA City, Iowa, Oct. 17.—A freshman, watching football practice tonight, spotted a backfield man who seemed to be performing better than the others.

"There is a real back who ought to make the 'varsity' next year if he continues his present gait," he remarked.

The football player to whom the young man referred was none other than Aubrey A. Devine, all American quarterback and freshman coach.

Devine's freshmen were demonstrating the Illinois' plays against the 'varsity' in a light scrimmage and not being satisfied with the way the backfield men were carrying the ball, Devine stepped in and ran the team himself.

PITTSFIELD WANTS TO PLAY FOOTBALL

Pittsfield American Legion Post has challenged the Jacksonville Post for a game of football. Jacksonville Post has not organized a ball team but will proceed to take inventory of its player members and if it can muster sufficient material for a team it will later make reply to Pittsfield.

At the regular meeting of the Jacksonville Post held last night the matter of a ball team was discussed together with the challenge from Pittsfield.

Notes from the Big Ten Camps

Illinois
 Champaign, Ill., Oct. 17.—Drilling to get in shape for the Iowa homecoming battle here Saturday. Coach Zuppke worked the Illinois team three hours after darkness tonight. Scrimmage against freshmen who used Iowa formations took up most of the time. Courtchie, Melwain, Stoik and Hill formed the new backfield. It was hoped that Clark, Robinson, Richards and Woodward would be in shape in time to play Saturday but it was declared that their injuries would hold them out until the Michigan battle next week.

Iowa
 Iowa City, Iowa, Oct. 17.—Iowa took another long practice tonight in preparation for the Illinois game Saturday. All regulars, including Heldt, center, participated in the signal drills, but only the second and third elevens scrimmaged.

Minnesota
 Minneapolis, Oct. 17.—The University of Minnesota regulars were given a rest this afternoon camping on the sidelines as the freshmen drubbed the second string 'varsity' 17 to 0 in a lively football scrimmage.

Coach Spaulding used his first eleven only for a light signal drill, during which time he gave them three or four new plays to be used against Northwestern Saturday. Coach Spaulding believes the main thing now is to have his men in shape to fight all the way on Saturday and the work for the remainder of this week will not be hard.

downs in the half century of its work, and according to those who have been familiar with its history, it is now doing better work than at any time previous.

The regular audiences are large and are increasing every Sunday since vacation time. All the departments of the work are in a good condition and the outlook is quite promising. There were about forty present at the Christian Endeavor meeting last Sunday. Paul Jones is president of this organization and Miss Meda Mogginson the secretary.

A special meeting of the official board is to be called soon and the fall and winter campaign will then be outlined. The junior congregation which meets every Sunday morning is under the superintendency of Mrs. I. H. Fuller, wife of the pastor, and excellent work is being done in this department.

The Bible school is also showing a gratifying growth in attendance and interest. J. H. Shirley is superintendent of the main school and Mrs. Myrtle Crain of the primary department.

Petroleum and Independence

SAYS the Chicago Tribune, "The automobile has increased the ability of people to take care of themselves—America's streets and roads are filled with motor cars because—the American in his own car feels the independence of going where he pleases and when he pleases."

The effective use of automotive power depends upon an adequate supply and efficient distribution of gasoline and other petroleum products. The users of automobiles and motor trucks of the Middle West would find themselves seriously handicapped were it not for the practically universal distribution of gasoline and oils, maintained by the Standard Oil Company (Indiana). This distribution system is continually growing, expanding, and penetrating new corners of the 10 states served by the Company.

The number of automobiles in the United States increased 13% during the first six months of 1922 over 1921. The increase in the states served by the Standard Oil Company (Indiana) during the past two years was over 36%. These figures give a fair idea of the rate of increase of distribution facilities required of this Company.

The Standard Oil Company (Indiana) expands in proportion to the increasing needs of the people it serves. It maintains 3973 bulk stations, so located as to assure rapid distribution of gasoline and oils. The number of these stations is promptly increased as the need for them arises. It maintains 1605 service stations, situated with a view to the convenience of the motoring public. It maintains throughout the rural districts 7167 tank wagons, which serve the farmer at regular intervals, enabling him to keep his truck, tractor, or motor car ready for instant use.

This efficient service of petroleum products is maintained at a high degree of effectiveness under all conditions and is the dominant factor in assuring the independence of the motorist of the Middle West.

NORTHMINSTER CHURCH NOTES

The district missionary meeting will be held at this church on Tuesday 24, and on account of this meeting there will be no meeting of the society at this church this Thursday.

The Sunday school is planning some very aggressive work in the near future. There will be a regular monthly workers' conference held every second Friday evening. A new department has been organized and Mrs. A. E. Sardinha has been chosen as the superintendent. A teachers training class will meet every Wednesday evening to study the Sunday school lesson of the following Sunday. We have planned to make our school a hundred per cent school.

The Violet Sunday school class will hold their annual bazaar on the evening of the 26th of this month. At this bazaar you will be able to get many useful articles as well as some fine Christmas presents.

The first week in November will be known as visitation week in Northminster church. At this time every member of the church will be expected to call on as many as possible during that week. Every family in the church will have one or more callers that week.

The Ladies' Aid society will give their annual chicken supper on Thursday evening the 26th of this month. They are making plans for a great time.

Market Report

WHEAT, CORN AND OATS SHOW GAINS
 BY Associated Press.
 CHICAGO, Oct. 17.—It was a
 bull market in wheat today not-
 withstanding temporary setbacks
 due to a decline at Liverpool. De-
 mand here broadened out after
 gossip spread that foreigners had
 failed to provide for their Decem-
 ber and January requirements
 and were just starting to do so.
 The market closed strong 1 to 1½
 higher with May \$1.13½ to
 \$1.15½; corn gained 2½ to 3¢ and
 oats 1½ to 2¢. Provisions
 finished unchanged to 1½¢ up.
 At the outset of the wheat
 fact that Liverpool quotations
 showed surprising weakness
 tended to discount holders.
 Subsequently, additional selling
 pressure was induced by an-
 nouncement that a cargo of 300,
 000 bushels of Canadian wheat
 had arrived in Chicago. Dis-
 closure that the cargo was in
 bond and had been brought in
 in erroneous expectation of a rail-
 road rate to New Orleans did
 a good deal to restore confidence
 in the buying side. During strug-
 gles to get back what which had
 been let go of earlier, scarcity of
 offerings became apparent and
 through the last half of the day a
 continued advance of prices took
 place.
 Shorts bought heavily
 both of wheat and other grain as
 well influenced by reports that
 car scarcity was worse than any
 time so far. December wheat
 showed more strength than May
 and houses with export and cash
 connections both December at
 Kansas City and St. Louis the latter
 market going to a premium
 over Chicago with final prices
 here at the topmost point attained
 in many weeks.
 All deliveries of corn reached
 the highest level yet for the 1922
 crop.
 Provisions were firmer.

LOCAL MEN HAVE TAKEN OVER PLANT

Pasteurizing Plant Will Be Operated by Messrs. Birnbaum, Hopper and Hofmann—Is Located on West Morgan Street.

The pasteurizing plant, located on West Morgan street, is to be taken over by several Jacksonville business men and operated by them with a view of building up a local trade in pasteurized milk.

Robert Birnbaum, Fletcher Hopper and Harry Hofmann are the promoters of the new enterprise. At the present time it is undecided if the company will be organized into a stock company or promoted alone by the above mentioned gentlemen.

The pasteurizing plant has been in operation for some time. It is probable that the promoters will interest a number of the larger dairy owners and possibly some of the larger consumers of milk in the enterprise.

ANNOUNCES MOVIE PICTURE PROGRAM

Will Begin Tuesday October 24—Coffer-Miller Players to Appear December 5.

Principal Shafer of the High school has announced the program of moving pictures which will be shown at the high school auditorium, beginning Tuesday, Oct. 24. The schedule, however, includes only the dates up to holidays.

December 5 is set aside for the Coffer-Miller Players, who are to appear at the auditorium on that day.

Film groups that have been chosen combine both entertainment and educational features. Some of the films have been seen in Jacksonville but they are of such nature that to see them a second time is more inspiring than the first.

In addition to these entertaining films which are to be shown to the student body, and to the public as well, films in the classroom are shown, which are wholly of educational value.

Principal Shafer is at present scheduling the program of films that are to follow the holidays and some worth while pictures are promised.

A nominal charge of ten cents admission is made at these entertainments and this money is used to promote the enterprise.

Following are the films and the days on which they will be shown up to the holidays:

Oct. 14—Bob Hampton of Placer.
Oct. 31—The Sky Pilot.
Nov. 7—The Kid.
Nov. 14—The Old Swimming Hole.
Nov. 21—The Last of the Mohicans.
Nov. 28—Annie for Spite.
Dec. 12—When the Clouds Roll By.
Dec. 19—The Birth of a Race.

SUCH IS LIFE.

"Eighteen years ago I had three ribs broken, fourteen years ago my right leg; eleven years ago I nearly went over with typhoid fever and since then have had awful stomach and liver trouble. Was filled with gas most all the time. I would have colic attacks so bad as to become unconscious. No medicine helped me and doctors advised an operation. One day talking with a stranger he recommended May's Wonderful Remedy, which helped me at once." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. For sale at all druggists.—Alv.
